Bad for consumers , bad for future of civil rights and bad for the future of American businesses all around the world.

This will lead to crippling of business in America in conjunction with SSSCA,DMCA. And eventually the rest of the world will give America the finger and take away the leadership that this country acquired thru cultural imperialism. Oh well. In 5 years you will wake up to this, when it is too late, but at least you will be able to experience despair.
